

# Mini Visual Fault Locator

Compact

2.5mm universal

USB Charging

LED light

## Products Characters

- ◆ Pocket size design,mini and compact
 ◆ Strong and stable light source, strong penetrating power
- ◆ Rubber dustproof cover
 ◆ Be equipped with LED light,more convenient to work in the dark
- ◆ Testing distance is up to 30km,high stability
 ◆ Built-in lithium battery,safe to use USB charging, convenient usage
- ◆ 2.5mm universal connector,suitable for SC/ST/FC connector

## Products Features

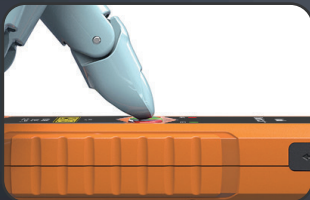

### LED light

More convenient to check the fibers in the dark

### USB charging

USB interface charging, charging at any time, Safe and stable, use at ease

### Concealed button

Concealed button to prevent accidental touch

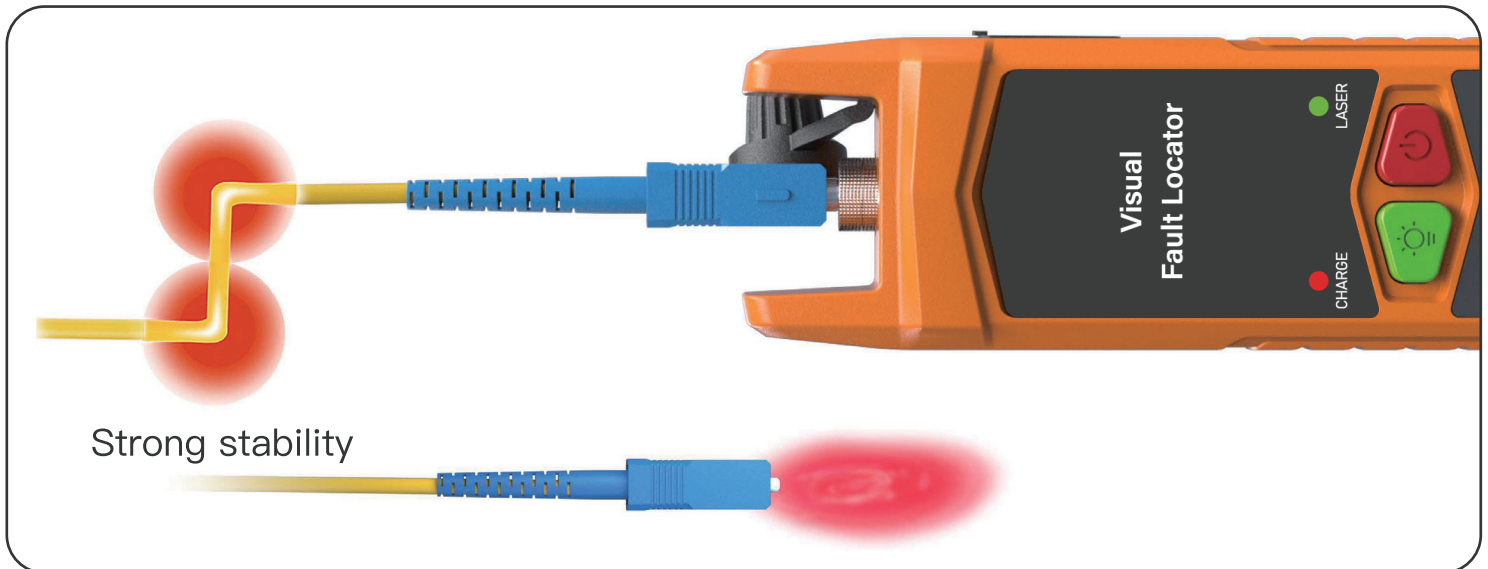

Back clip design

Convenient to carry

Testing distance is up to 30km

2.5mm universal connector

## Products specification

Model		BG-VFL-10	BG-VFL-20	BG-VFL-30
Power range		10mW	20mW	30mW
Testing distance		8-10km	15-20km	25-30km
Working time	Battery type	5H	4H	2H
	Charging type	10H	8H	4H
Wavelength		650nm		
Laser type		LD		
Frequency		CW / 2Hz		
Working temperature		-20 ~ +60 (°C)		
LED light		Yes		
Power supply		AAA 1.5V battery X2 / Lithium battery 1000mAh		
Charging port		USB charging(only for charging type)		
Dimension		127 x 36.5 x 28 (mm)		
Weight		61 g (with battery)
